Introduction

Welcome to the Official eXceptional's E-Book Lounge - I'm sure you've all seen this kind of thread before so there is no need for me to explain it's what this one does. As always, I'm here to sell my E-Book on "How To Start Your Own Social Media Business". The guide is Noob-Friendly and all the users will understand the Guide. While creating the book I always had in mind how people would understand the language I will be writing. If you have any issues related to the Guide you can always ask me for help.

F.A.Q

Q: Do I need startup money?

A: You need a minimum \$10.00 investment

Q: How much money can I expect to make?

A: I make more than \$25000 yearly, the method is exponential but realistically the time you put into it is what you profit from. To this day I still make money from this.

Q: Does this method work in my country?

A: This method works everywhere, there are no such limitations

Q: Do you have vouch copies available?

A: Yes, you can get a 50% discount instead of a free vouch copy (Only Reviewers on Hack Forums)

Q: How much can we earn every day?

A: This is the most common question I get, at first when you stabilize the method you will just make money which you invested. The more you are specialized in this work the more you will earn. You just need to have some brains and you can earn \$25000+ Yearly as well.

Q: Will you help us with the ebook?

A: Yes if you paid for the E-Book I will surely be helping without asking any further questions.

Q: This e-Book was first published in 2014. Is this e-Book still worth buying?

A: Yes, this e-Book is still worth buying and you can still earn a lot of money through this book. You just need to follow the steps mentioned in this e-Book.

How Do I Buy ?? [Purchase with PayPal](#) - \$9.99

[Purchase with Bitcoin](#) - \$8.99

Terms of service ([Click to View](#))

No refunds & chargebacks. Once you purchase this eBook I will not provide a refund! You will most likely earn with this method so no need for refunds :)

No sale trashing or spamming on Skype/HF PM or Convo. If you do this I can deny your support & mentoring.

No leaking/sharing the method. If this eBook gets leaked and I find out it was you I will open Community Alert and deny you support.

Review

I recently joined Enterprise but I have had no contact with this user before requesting a vouch copy.

Grammar 10/10

I didn't notice a single grammar mistake. I don't purposely look for them and my grammar isn't exactly perfect but zero stood out.

Content: 9/10

The eBook is 9 pages long. Don't worry yourself to much because the text is a nice size to make it easy to read. This isn't exactly a step by step guide how to make the same amount of money as the author. Instead its a step by step guide on how to set up and explaining how to earn. The actual earning part is entirely up to you, the author provides everything needed to earn, you just have to go out and do it.

Originality: 8/10

I feel a lot will know about the basic method behind this but they will not realise how profitable it is until they read this eBook. I'll just say its a method I've seen some users do on a very small scale but this will explain how to do it on a much larger scale, this is why I rated it so highly. The payment proof inside the eBook is very impressive and I hope the author does not mind me leaking this small part but one of the payments he received is for \$1500. (If you would like me to remove this, let me

know,)

Layout: 10/10

It's very basic but I can't find any faults with that. Its all aligned nicely, screen shots included and each step has its own title so you can easily follow this eBook with out any problems.

Overall: 9/10

I'm not going to give a perfect score for the eBook but its a very high 9. If you follow this eBook and actually take in what is said, you'll be on your way to matching the authors earnings or even beating them.

Personal message

I highly recommend this eBook. Work is involved but its not hard work, you're sat on your ass clicking a mouse and tapping letters on your keyboard, there is nothing hard about that. Any idiot could learn from this eBook and start making thousands per month if they are dedicated. It works world wide, any age etc.. there's nothing stopping 100 people from purchasing this eBook and all earning large amounts of money. GLWS OP!

1700block - December 2, 2014, 5:00 pm

If you're looking to start your own Social Media Service this is the e-book for you! In this e-book, step by step, this member shows you how to get started ASAP and get selling. He gives helpful tips on where to sell and the best way to do it. Within these 9 pages this member does not lack on information one bit. In this easy to read guide, this member tells you everything you need. And the navigation of this guide is so simple that a 2 year old would be able to follow!

This guide is so simple, literally step by step, nice size text that even your grandma would be able to read... Well it's not that big, but it's readable. The language is completely in English and I haven't seen one flaw in the grammar yet.

My personal note to you would be BUY THIS E-BOOK. You read on how the author is making around \$25,000/year, and with this e-book and marketing skills that you can develop, no doubt in my mind will you make the same amount of money as the author.

This e-book isn't another trillion dollar method here on Hack Forums, this method will GET YOU EARNING & LEARNING. So, as stated earlier, I would purchase this e-book if I was you.

Initial investment can be as low as you want. Investing \$10.00 would be perfect. You simply can make \$20.00 of the invest you made. Which also means you straight away got \$10.00 Profit after the investment.

A: Yes, this e-Book is still worth buying and you can still earn a lot of money through this book. You just need to follow the steps mentioned in this e-Book.

Profit is really easy to show up within a day but you have to make sure you give enough time. Not giving time will not help here.

This eBook is not a 1000\$ money making method that works autopilot.

will answer them.

Also, the method is not related to Ads.

vyactor - January 22, 2020, 5:25 am

I got few questions.

1. How long does this take to make money if I can give like 5-6 hours a day?
2. You just said 10\$ as a minimum investment? How much can I make with 10\$ investment?
3. Can payments be done in cryptos? PayPal isn't supported in my country.
4. Does this includes selling products and advertising them to make sales?

1. Enough to see the profit.
 2. You can set your own margin. It can be 11\$ to 20\$ after investing 10\$.
 3. Yes, multiple payment options.
 4. Yes.

Recently my sales are down and I make about \$300-500 a month. But if properly used the method can give you \$10k a month too.

I had the best months making \$3-5k a month for a minimum of 5 months.

No, this ebook is more about the business on how to sell instead of just grow your own account.
