Thread: [Free Steam Stuff! 2 Items per person! "0.02\\$/person"](#)

Hello HF.... Well I have a butt load of useless items. A lot of stuff you can use for your own aesthetic appeal. I will give everyone 2 items. You can choose either backgrounds or emoticons or one of each.

After crafting cards over the past 2 months I've stocked up too much stuff and since I can only create 200 listings on the market per year, I need to get rid of the over loading junk. You can keep the items to make sets or sell them to build up your steam wallet funds to craft your own badges or what ever.

I will only be doing this tonight and tomorrow once my inventory goes private I will NOT be giving away items. I will then be trading 3 -> 1 ratio for cards.

Please leave a comment on my steam profile (not my hackforums rep(thanking me for the giveaway or saying +1 trader rep. I really will appreciate it.
