Thread: [\[Tut\]\[FREE\]How to crash your enemies KIK method. \[Kik exploit\]](#)

Manipulate - December 2, 2014, 8:44 pm

I just wanted to throw out this is not my method. It is a public method but I just want to share it again as a update.

Step 1

Make your device on airplane mode and turn off any cellular data.

Step 2

You will have to have kik of course then you go to a chat with your victim.

Step 3

Send or spam any messages a lot of times like 100-1,000.

Step 4

Get off and turn airplane mode and turn your cellular data back on.

Step 5

Wait until you are connected and it will send all the messages at once. Depending how much messages you sent them might lag/crash the app. If you sent a lot of messages maybe even crash their phone. This method is similar to a sms bomber.

I am not responsible for what you do with this and remember to leave positive feedback!

Evolute - December 2, 2014, 8:47 pm

Why haven't I seen this before? Thanks, haha.

Manipulate - December 2, 2014, 8:49 pm

Juice WRLD - December 2, 2014, 8:51 pm

I thought if you aren't connected it will pop up not allowing you to send anything? Am I wrong?

Manipulate - December 2, 2014, 9:01 pm

(Dec 2, 2014 09:51 PM)Jabari Parker Wrote: [\[CITE\]](#) I thought if you aren't connected it will pop up not allowing you to send anything? Am I wrong?It will show Connecting with a loading symbol and then when you take off airplane mode it will send all messages at once. I just tested it on my friend and he said it worked.

Furline - December 3, 2014, 6:01 am

I just did this. I used an app called HiroMacro to automate the sending of the messages. Worked well. Thanks!

Lil Herb - December 3, 2014, 11:39 am

Was not found I tried looking for "HiroMacro" and couldn't find it.

FreeAnneFrank - December 3, 2014, 11:41 am

Damn this is a great idea :D
Thanks for sharing OP :)

Lil Herb - December 3, 2014, 1:09 pm

Tried it doesn't seem to be working for me?

Manipulate - December 3, 2014, 2:29 pm

(Dec 3, 2014 02:09 PM)Lil Herb Wrote: [\[CITE\]](#) Tried it doesn't seem to be working for me?What seems to be the problem? Did you have airplane mode on? Make sure where your victims name it i s saying Connecting... and then send how much messages you want and then get off airplane mode.

(Dec 3, 2014 12:41 PM).RKO Wrote: [\[CITE\]](#) Damn this is a great idea :D
Thanks for sharing OP :)Yes, I tested it on my friends phone, he said it lagged his kik then all the messages loaded at once.

xfitz54 - December 3, 2014, 3:28 pm

This sounds like a great way to screw with my friends.. thanks!

Manipulate - December 3, 2014, 3:42 pm

It's a really nifty app for a lot of things.

I use it to make janky bots for various games

If you looked for it in the store on your phone, it might not of shown up if it's not compatable with your phone :p It's "HiroMacro Auto-Touch Macro" in the play store.

I have an iPhone looked for it in the App store.

Also couldn't get this working followed all the steps showed "S" then "D" then the victim read it and they responded...

The "S" means sent the "D" means delivered like they got a notification and "R" means they read it,

vaan - December 3, 2014, 4:57 pm

Hope it work. Thanks a lot for sharing. Might try this in another way.

Lil Herb - December 3, 2014, 5:08 pm

(Dec 3, 2014 05:44 PM)TO0R Wrote: [\[CITE\]](#) The "S" means sent the "D" means delivered like they got a notification and "R" means they read it,

Yeah but isnt it supposed to crash when they read it?

Moon Rock - December 3, 2014, 5:11 pm

I'm going to try this right now, however not going to use data because I'm low on it :#

Manipulate - December 3, 2014, 5:13 pm

(Dec 3, 2014 06:08 PM)Lil Herb Wrote: [\[CITE\]](#) Yeah but isnt it supposed to crash when they read it? Depending how much messages you sent. It is a simulator too a SMS bomber. If you can get around 100-1k messages you can maybe crash/lag their phone. Also depends on their phone.

rockniel - December 3, 2014, 5:18 pm

great and nice idea. keep sharing your knowledge sir. thanks.

Moon Rock - December 3, 2014, 5:20 pm

Tried this and some of them are delivered and some of them are just sent, not sure how it'll do :#

Manipulate - December 3, 2014, 5:28 pm

(Dec 3, 2014 06:20 PM)Hitman Agency Wrote: [\[CITE\]](#) Tried this and some of them are delivered and some of them are just sent, not sure how it'll do :#Did you run out of bandwidth? Maybe maxed out.

Moon Rock - December 3, 2014, 6:19 pm

No, I don't like using data so I tried it with WIFI :P

Manipulate - December 3, 2014, 6:41 pm

(Dec 3, 2014 07:19 PM)Hitman Agency Wrote: [\[CITE\]](#) No, I don't like using data so I tried it with WIFI :POkay. Did you have airplane mode on and it saying connecting...?

Moon Rock - December 3, 2014, 8:28 pm

(Dec 3, 2014 07:41 PM)TO0R Wrote: [\[CITE\]](#) Okay. Did you have airplane mode on and it saying connecting...?

Ahh, forgot about that part. I'll have to retry it in a bit.

(Dec 3, 2014 09:28 PM)Hitman Agency Wrote: [\[CITE\]](#) Ahh, forgot about that part. I'll have to retry it in a bit.Haha, that's what a lot of people miss out.

Rangi.Exploits - May 4, 2020, 11:40 pm

This is a very useful exploit! It can get even better if combined with crash codes. Because you might crash yourself if you send them, lots of people have made bots that just say it for you. Here are some commands you can use to call upon these bots in PMSs or public groups.

@rqbot androiduser

@exploit.ai ios

@hobot3.0 cc

@cryptedbot clear

@satanic.salvation clear

@exploit.ai fresh

@cynax.bot android
@b0mbr pack
@rovabot clear
@alphawolf.corps boi
@deathboysbaby clear

All of these will send crash codes, and combine with the airplane mode tactic really well.

(To learn how to use Kik exploits such as system/status messages, DOS attacks, flood attacks, owner spoofing, bricking, IP logging, and more... You can reach me at @CrismonCurse on Kik! I also offer various Kik hacking services.)
