Thread: [Appraisal Needed For Doman - Primedice3 - \[Best appraisal will get 1\\$ BTC Award\]](#)

How much the following domain could be worth? ->> [Primedice3.com](#) <--

It is now not shown on first page of google when searched for keyword "primedice" but a new blog + a week of little work would make it back to first page 2nd, 3rd rank of google when searched for a word primedice.

I don't own this one , but I'm just wondering how much it could be worth, a person I know who owns it got offer of 1BTC for it but I'm wondering maybe it worth's more? Thanks.

I'd say this could be worth a shit ton.

Primedice have a refferal system, if you could get this to the 2nd result you would make bank with refferals.

or you could sell it to the owner of primedice.

i'd say 3-4 btc but im no master appraiser.

It was on the first page 3-4 weeks ago, but then the website was taken down by the owner and it lost the ranking. But I think it is easy to get it back up with a bit of traffic and a little Seo.

EDIT: The girl that owns this domain told me that she had an offer from Stunna to buy this domain.. So I'm not sure.. I'm wondering if she should sell it for 1BTC, as she told me that she might do but I think it worths more for real this is why im asking , just to help out someone.

I'd try and get it to atleast 2 btc but that might just be me.

but since stunna is trying to take down the domain until he owns it, it might not be worth as much since ranking would be much harder.

Well, the potential for this website could be pretty high, since you could get alot of referrals and make bank with it. On the other hand, it's not a that special domain, Maybe 1-3 BTC to the right buyer, if you can spread it alot, Then it's a great domain.

So 1.5-2 btc maybe.

Yeah, something like that indeed. Possibly higher to the right buyer.

Stunna is not trying to get rid of it, Stunna is wanting to buy it off the owner.

Tell your friend to counter offer at 3 bitcoins and then see if the buyer and seller can meet in the middle at 2 bitcoins.

Hehe, its ok. Happens to everyone. I though I would recommend her to try and sell on sedo, but I don't think that someone will buy it over there.

You could try flippa but i doubt you would get too high bids.

17ROLL - December 4, 2014, 7:10 am

I would prefer Sedo more. They ask to pay the fee just when domain is sold haha.

Maybe more appraisals please? By anyone? Also maybe there are people who would buy it, I would give you the contacts of the person who is selling it. The domain just got put up on sedo a hour or two ago.
