Sup guys! ?

I know I am new here, but I just wanted to share something with all of you here haha. During the PSX (Playstation Experience), EA announced 3 of their games will be totally free.

So don't wait, go onto your Playstation device and download the games while they're free. They're free till 6pm today! It is:

PS3: Mirror's Edge

PS4: Plants vs. Zombies Garden Warfare

Vita: Need for Speed

They're free for everyone, so no need for a US PSN account.

(Btw, for everyone that hasn't seen it yet. Check out the UC4 gameplay footage from the PSX. It's amazing!)

BTW the games are no longer free. Staff should close this thread.
