Nice theme. Me too have done alert value display on button in my current theme which i will release in couple of days as working on few other controls like Multiline Info button done by "Hawk HF" in his pro controls.

Regards
Saket

Looks pretty good man. It has a smooth metro feel.
Maybe have the progress bar border a little more intense.

Also is the text just a label?

Yes, the text is a label, and the parent is a groupbox (FlatbyGroupBox).
Thanks for the feedback !

Rounded Rectangle at the top. :)
There is a leftover there .
