Thread: [\[TuT\] How To Rip Any MyBB Theme](#)

Internet Security - December 9, 2014, 12:51 am

As a web dev i have learnt a few things, And whats knowledge if you don't share it!!!

By the end of this tutorial you'll learn how to rip any mybb forum theme in not more than 5 minutes.
Do not use this on HF!

Choose a Mybb Forum Theme

Right Click and select "View Page Source"

Press CTRL+F and search for ".css"

You will be shown a global.css file link.

Select and Open it,

Copy the entire code into a notepad.

In some lines you will see something like

Quote:(.../images/theme/header.png)

Just replace those dots with the website URL for which u are ripping.

Do this for all the lines that contains dots.

Done!

You have finished the ripping. Theme is ready.

Now Go to your MyBB Forum and navigate to:

AdminCP>Templates and styles>Themes>Create new theme>Name it> Global.CSS> Advanced Mode>

Copy and Paste the code here and save it. Done!

I know the layout isn't the most appealing but it will have to do for now

Discounted - December 9, 2014, 1:07 am

Nice Tutorial Man!, Hope To See You Around

Thanks man i appreciate it!, Have fun ripping themes

Mista JD - December 9, 2014, 6:51 am

Thanks for the tutorial. I will try it out sometime...

Leakadot - December 9, 2014, 6:52 am

This is a old method but it works!

Thanks for sharing!

We can use this to also RIP videos from sites that won't let us download the content... ?

Fanks anyways...

133720 - December 9, 2014, 11:12 am

Thanks you for explain bro. Nice trick.

OBL1V10N - December 9, 2014, 12:20 pm

sweet work i will try this some time all ways wonder if it works well

SIM-209986 - December 10, 2014, 1:43 am

Bullshit.

If the theme has custom templates, what are you going to do then?

It's the most basic stuff really.

Hazy - December 10, 2014, 1:47 am

This won't always work out, just so you know.

jorritisief - June 21, 2015, 7:39 am

And how to rip a header?

C

naberhaci - September 23, 2016, 9:53 am

I tried that method but my forum messed up :/ Probably not working for all templates

herodis - December 31, 2016, 1:04 am

tenks broo good jobbb.. :)

Motusora - December 31, 2016, 1:06 am

nope , it won't work mate . sorry

Hypocrattes - December 31, 2016, 10:48 am

This thread is over a year old...

Maxs - January 4, 2017, 11:29 pm

This is a old method but it works!

Thanks for sharing!
