Yous - December 9, 2014, 3:33 pm

REAL CLIENTS, REAL INCOME, MAKE \$X,XXX PER MONTH!

Not going to toot my own horn here but pretty much all of my buyers have been begging me to just close this now. It's in my opinion the best ebook on hackforums because it creates a solution to an unfilled need and requires practically no work.

"Why compete with others who have already established themselves when you can create and be the first"

Look i'm not going to bullshit you with some \$40 sales thread. Why?.... because selling ebooks is not my business and it's not how I make my money.

Seriously.. Those of you who have seen me around the forums know I LOVE sharing methods for free! Don't believe me? Read some of my threads below then come back to this thread.

FAQ

Is this completely online or do I have to meet people?

This method is 100% virtual you do not need to meet with anyone in person or even call them.

How much investment is required?

Nothing this requires absolutely zero investment and you can start within 5 minutes after purchasing.

How much time will I need to put in?

The beauty of this method is how little time you need to put in. To give you an example it only takes about 12-18 hours of work PER MONTH to earn \$2000 a month with this.

Less than 8 people have purchased this method so there are very little reviews and that means only 8 people are currently using this method! It's completely unsaturated

You should change your thread to 1/5 \$15.99 copies sold then. And also, the screenshot doesn't prove anything, it just makes things more confusing. You left out the whole page only a screenshot of the sale. The sale was made on Dec 8, which was yesterday when your thread just opened today.

It's nothing to do with online courses. This is a private method in which you obtain clients, provide them a service, the service takes only a few minutes per month (0-40 minutes per client, per month), and you charge them around \$79-249+ per month.

zivid - February 18, 2015, 2:45 pm

I can vouch for this method, takes a while to find clients (at least for me) but other than that its a good method.

Sandler - April 27, 2015, 8:16 am

Sandler's Review

I bought this eBook and have to say, it's really nice in my opinion. I earned \$70 already in maybe 3 hours of setting it up and getting clients. When you got clients, there is around 1-5 hours per month and per client involved.

Ease of use (9/10)

The method is pretty self-explanatory and really not difficult, in my opinion everyone is able to earn when he puts a bit of effort in.

Layout (9/10)

The layout of the book is pretty nice, although the book is not very long. The steps are explained well with additional pictures.

Originality (10/10)

I have never seen this method before.

Method as described (10/10)

The method is as described, it takes a few hours to get clients and then you can earn. The support was via PM and Yous answered all of my questions.

Overall (9/10)

I would recommend this book, as it's really different. If you like Yous' threads, for example the micro-orm one, then you will love this book even more. And for only \$10 it's really worth it.

Remember the limit for sales on this is 30 total copies. Currently nearing 15 sold. Once it hits 20 sold the price goes to \$14.99

Yous - May 5, 2015, 3:52 pm

Another copy sold today. Total is now 16/30 sold.

Yous - May 11, 2015, 10:29 am

Because so few people do this and the number of potential clients it's in all honestly pretty easy to get the clients.

Hmmm. Part of the reason I'm so interested is because for your past ebooks you've made Skype groups for all the buyers, and that's something I want to be apart of. Well, I'll consider buying

I might bring that back but I never get enough people that are committed and interested enough to make the group good.

All copies after will be \$14.99!

Huge vouch for Yous, probably one of the only working methods you'll find these days

Yous - May 18, 2015, 10:53 am

The last \$9.99 copy is still up for grabs. Once it's sold all copies will be \$14.99

Twinca - May 19, 2015, 2:06 pm

Well lets see what it will bring in ;)

I like the idea, i will just put it 10 steps higher :D

Yous - May 19, 2015, 2:14 pm

Still the last \$9.99 copy is still up for grabs. Once it's sold the last 10 copies will be \$14.99

EDIT: The last \$9.99 copy has been sold. All copies are now \$14.99!

Only 10 more copies will be sold then sales will be closed.

Yous - May 21, 2015, 7:03 am

The first \$14.99 copy has been sold.

ONLY 9 COPIES LEFT TO BE SOLD THEN SALES CLOSE FOREVER!

Yous - May 22, 2015, 3:04 pm

Not going to toot my own horn here but pretty much all of my buyers have been begging me to just close this now. It's in my opinion the best ebook on hackforums because it creates a solution to an unfilled need and requires practically no work.

"Why compete with others who have already established themselves when you can create and be the first"

Anyway so rather than seeing out the last 9 copies sold I will close this in 24 hours. This is your last chance forever to get in my opinion the best ebook on HF.

Yous - July 1, 2015, 10:15 am

Since only 4-5 people who have purchased put in the work. And since I no longer am using this since I need to focus on my fitness business I have decided to re-open sales!

ItsATumor - July 1, 2015, 10:42 am

I've known Yous for only about 2 weeks, but in those weeks he has shown himself to be a genuine and down to earth guy. He loves to help people, and everything I've seen him produce has been nothing but quality. I can assume this is another one of his masterpieces, and you should snatch it up while you still can. He has my vouch.

Yeah. I just re-opened sales a week ago.

I previously sold just under 30 copies. I checked on the status of the method recently and hardly anyone stuck with it so it's super unsaturated. So I decided to reopened and limit sales to 10 this round. ?

ChanceTM's Vouch Copy Review

Hello HackForums. I just bought a copy of this ebook and I have to say, it's fantastic. It is very well written and includes everything required to make a good income. I can see this method earning at least \$500 per month but with a bit of hard work and dedication, you can easily make thousands. I would easily pay up to \$50 for this method and can't believe I picked it up for a measly \$10. Thanks for writing this OP.

Originality

I have read hundreds of ebooks from multiple forums and leaks and I can safely say that the information provided in this ebook is not available anywhere else. This does not include anything like Etsy, Fiverr, Amazon, Ebay, SEOClerks, dropshipping, gambling, CPA/PDD or anything like that. This means that when you purchase this ebook, you know that you aren't going to get a stupid public method. \$10 for a unique method? Yes please!

Method

The unique and high quality method provided in this ebook is insane. It only requires about 2 hours per month for each client and can make you thousands of dollars. The method is also customisable to make even more money. I can see why the OP is only selling 10 copies as it may become saturated, even though this is still quite unlikely.

Content

The ebook is quite short only totalling at 11 pages, but this isn't a bad thing. In this case, it is actually very good as it gets straight to the point. Nothing in this ebook drags along to bring up page and word count. There are some ebooks out there that spend a whole two pages explaining what 'Amazon' is, in an Amazon refunding ebook! Because the content is so well structured and concise, I like the ebook. It's easy on the eyes and includes picture for guidance. It also has links to a few other pages that Yous has written which would total up at around an extra 3-4 pages of content.

Difficulty

One of the greatest parts of this method is that it is not difficult at all! The method contains everything you require and you only need to change a few things. The process may take 30 minutes for your first client, but with experience, you could have money in your account within 10 minutes. It's very easy.

Price

This ebook is dirt cheap. Just get it, it's a complete steal for \$10. As I said before, I would happily pay \$50 for this method. Everything in the ebook is so high quality and written for an English audience. \$10 to make \$1000's? Sign me up!

Overview

The ebook is very high quality, concise, explains everything, it is unique and unheard of. Get it. It's one of the highest quality ebooks I have ever seen. I would personally like to thank Yous for releasing this amazing method.

This vouch is in no way associated with the seller.
