Thread: [Allows signatures for stressers that have...](#)

Understalker - December 10, 2014, 4:17 am

Would it be reasonable to allow signatures for stressers that have stickies in the SST section? That way it'd be limited, and you wouldn't see a billion signatures going around with SST.

I'd like Omni to answer this himself, so please don't close this.

Thanks.

I feel like this would be a bother to enforce :/

I agree with and support your idea though, a boon of buying a sticky could be the right to wear a signature.

That's just paying to get past a rule, which i think, won't be allowed.

Not at all, it helps with advertisement and would be a great addition to purchasing a sticky.

Make the stickies in the SST section cost an extra \$5 ? ? ?

I agree with the idea. It would give buying a sticky even more of a bonus. Hopefully this works but like Sir said, it would be hard to enforce

webdev77 - December 10, 2014, 6:23 am

I would be perfectly okay with seeing such sigs, but obviously my opinion isn't important here.

I agree. Since Omniscient removes the sticky at random times the day it ends, it could be hard to enforce it.

What's the punishment then? A warning? Signature privileges removed for xx amount of days?

I see no reason to add this at all. You already advertise extra by having a sticky. I don't want to view "omg best booter eu" all over HF.

So you're saying you want Omni to keep track of stressers he's sold stickies too; then after each stresser's sticky runs out. He has to watch for that stressers name in signatures and warn them accordingly.

It won't work; dumb idea.

Why Omniscient only? He has mods and staff for a reason dimwit.

I also just wouldn't want to see stressers in Signatures, Annoying, In my opinion. I'm not interested in them.

The majority of people don't wait to see eBooks but it's there anyways, point being?

It will be limited... not everyone will have it.

What about people doing contests requiring that members wear a signature? What if that signature is for a stresser? What if fifty people wear that signature? What if the sticky ends a week later and the continues or contestants don't change their signature when it ends. Tbh, not at all worth even give extra bucks a week for stresser stickies.

1. Rule suggestions. I will not take them at all. No one but me makes the rules here.

Stressers advertising is not allowed in signatures period. Rules are rules. Omniscient doesn't want Stressers being advertised on the forum.

2. I don't care if I have to remove every damn signature manually. No advertising of Stressers in profiles.
