Thread: [\[CLOSED\] Woden's Free Avatar and Signature Shop](#)

Woden - December 10, 2014, 9:13 pm

Hello :) Well I decided to make a free graphic shop mainly because I did a bunch of signatures for Phoenix (the baes), and I really enjoyed doing it so why not? Another reason it to possibly open up a shop so might as well start building up a portfolio.

Rules going forward. I will try my hardest to get to you, but if I don't pm me

You have to follow the format.

Try and be specific in your request. Makes my life a whole lot easier.

Only Avatars and Signature.

Anything I post here is my work that I am giving to you. Don't steal the credit and claim it's your own for favor.

Would be really sweet of you if you could leave a vouch if you liked it

Formats.

Avatar format

Code What design would you like?:

Preference is colors?:

Other info:

Signature format

Code What do you want?:

Preference in colors?:

What size would you like?(default is 650x200):

Other info:

Previous Work. Note that I just started to take this seriously :)

Yeah, either that one or this one. I like both of the fonts, it's just that this one has matching fonts and I have OCD about this kind of stuff. ?
