Thread: [How to not get limited after you got limited](#)

**Dickbutt.scr** - December 11, 2014, 9:12 am

For all the shit stains who are too retarded to call PayPal and unlimit your paypal again cause you're a no brainer, I provide you the guide on how to not get limited ( or atleast get limited, but at a slower rate ) after your account got limited

1. Clear your cache and cookies in your browsers history settings
2. Use different browsers each time you access a new paypal account

Let's say you used Chrome to access your main account and your eWhore account, suddenly your eWhore account got limited, what do you do?

You keep using your main account on Chrome, yet you MAKE a NEW account on FIREFOX, and keep using fucking firefox

Works the same for Firefox ( Used firefox as main paypal account, time to use Chrome )

3. Change IP's Every. Fucking. Time, you log out your PayPal(s), same goes for cache and cookies

That's pretty much it, have fun being slowly fucked by PayPal ?

I'm not sure if this is directed towards me but thank you.

Yet he says to call amazon and unlimit your PayPal?

Well, that's enough humanity for today.

**henkielul** - December 11, 2014, 9:20 am

Awh are you still sad about ure rep fuck ? :P ? poor you haha ? keep going like this and you will just get closed one day. you are just doing me a favour.

You're a stupid fuck. My account won't get closed. I could easily earn the reputation back but I won't do this because I leave the E-Whoring section. I'm tired with helping retards like you. It's impossible to earn money with your grammar, just saying.

And by the way, I was just pointing out that your account doesn't get limited because you earn nothing, that's it.

All this you're a retard, they are retards, all are retards, no you are a retard talk is clearly indicative of how morally bankrupt e-whorers usually are. Ya'll out to fk one another ... wish there was some humanity left in us other than screwing people over and calling them retards.

Frustration must get to you when you've been doing this for years and everything seems easy and obvious to you but every now and again a new "retard" stumbles upon this forum and is lost in all the new information ... to you he's a retard. But you'd probably be the same kind of retard while venturing into other domains of which you know nothing about.

Also ... learn to accept the fact that not everyone is as smart and knowledgeable as you ... besides without idiots how could you ever make money e-whoring..

OP u have some serious rage on u, seems like the frustration of years of ewhoring is finally wearing down on u lol, on a serious note, using same ip or browser wouldn't limit your accounts, there are dozen families, college students..ect who use the same network/comouter to log in to their paypal accounts without a problem. it's more about what you do with the accounts as paypal has triggers and filters we don't even know about, so if you do seomthing that triggers those filters ur pretty much fucked. i know some people who has their ewhore and main paypal accounts limited at the same time, even tho they were using each account from different locations/ip...you can run but you can't hide.

In total I eWhored collectively for only 4 months

Also all your other shit is used to trace back limited accounts, don't deny it.

i don't even like to argue on forums or start shit, and there is nothing with working in a textil factory as long as it's honest work.

Why do you even bother to reply if you won't even read ... I said morally bankrupt not financially and  
this other clown last session jumps to your defense using dumb arguments and disregards any  
intelligent form of conversation.

On a side note:

I'm glad ya'll make money and that you're smart and dedicated enough to make them ... it's not  
something anyone can do .. but that was NEVER my case here so why you picking on me for not  
making anything ... that wasn't part of my argument.
