Thread: [\[\\$150 tip\] Getty Images search to RSS feed](#)

moxcx - December 12, 2014, 12:13 am

Hello,

I was wondering if it is possible to turn a Getty images search ([gettyimages_com/search/2/image?phrase=chris%20evans&family=creative,editorial&sort=newest&page=1&excludenudity=false](#)) into a working RSS feed that will update as soon as a new photo is added to the search.

I don't know if this helps but the Getty Images API are available to everyone: [api_gettyimages_com](#)

Not familiar with coding or the possibilities, which is why I'm here.

This seems like easy money. If you somehow find a way around it, email me at [qtrinsider@gmail_com](#)

(Replace _ with dots)

Thanks
