Hello,

I'm so stoked that I just jailbroke my iphone again, I'm having some trouble though finding a repo that has cheats for the game "Blitz Brigade". I'm kind of bummed out as I had it about 6 months ago though I forgot which repo I used ???

Thanks in adv for any help

Try this

Repo URL: <http://idwaneo.org/repo>

iphonecake didn't have it, and I think you mean <http://idwaneo.com/repo> ? any how, .org didn't work and .com didn't have blitz brigade ?

Thank you for trying to help though as it's really appreciated.

I think it has to be version 1.5.0, is it possible to downgrade a app version or is there an updated version of this?
