Note -

1) This is my Seventh Theme... written while learning so it may have bugs...

2) Theme is coded without Themebase...

3) Constructive Criticism & Suggestions are always welcome...

4) Please leave comments for encouragement... ;)

5) Will add more controls if you find it useful & need arises... ;)

6) Credits to "Aeonhack" for Roundrect function...

7) AlertBox Control idea taken from "iSynthesis" Flat UI theme

It served as inspiration.

OP I'm in love with that combo box.

Ohh I got you.

Though yeah, it is a very good theme. A little few look ugly but overall it does look sexy,

Looks reasonably good. If you want to improve it further, I suggest modifying the control boxes (minimize, maximize, close) so that they aren't just flat squares.

I agree with this member. It does look like flat squares but everything else looks very clean and good.

I actually like this one a lot :) Great job on it and thank you for sharing... wish I had this for a project I did last year LoL

Marwix - December 13, 2014, 8:31 am

A really good design. I suggest you to work a little bit with the label since they aren't supposed to have a square around the text content but that's just me..

In overall, it's a really good-looking design ?

CryptoH4ck - December 13, 2014, 10:23 am

A really good work Thank youuuuu Good Theme ^^
