Tyler the Creator???????? - December 12, 2014, 7:31 pm

Hey I recently got this method from another user with his permission to give away.
So I will be giving it away to all members (l33t, ub3r, ep1c, and normal).

If you are interested in getting this ebook [PM me](#)

This method will include how to do it with IOS as well as android.
It does require an initial investment (your getting ALL of your money back don't worry) and for you to email/chat with a agent.

If you are a normal member here are the requirements:

- Positive rep
- At least 100 posts

this method is different from Lingo's method im almost sure of it... awaiting for him to send me his method to make sure its different.

Send \$5, ask for a refund, keep doing it? Most common method lol it's been on here at least a hundred times

Maybe you should specify which member gave you the method? Just a thought
