- 1) This is my Eighth Theme... written while learning so it may have bugs...
- 2) Theme is coded without Themebase...
- 3) Constructive Criticism & Suggestions are always welcome...
- 4) Please leave comments for encouragement... ;)

5) Will add more controls if you find it useful & need arises... ;)

I dislike themes that don't distinguish the form head from it's body... it just looks... odd.

EDIT: Example of what I mean... [\(Click to View\)](#)

Onlykl requested the theme so i created. User might need header so added feature but it supports header hiding too ;)

I dont know why, but this theme seems so pleasing to the eye.

Good work ?

Other than the control boxes, I think you did a pretty good job with this one.

You should add the group box like the one in Onlykl's thread.

Instead of releasing a dirty and non good-looking theme everyday, please take more time to do things well.

There is a GAP between yours and the original one.
