It seems like he must have been testing shit, not expecting someone to come along, and he set a real package to 0.00\$.

Have fun.

Not sure if the hosting actually links to any ip, but the ftp and cpanel work.

Can you provide proof of this information?

ZuGgY - December 14, 2014, 9:37 am

The name/domain is just horrible. Oh jeez.

What's wrong Zuggy? don't cha like some PoopHosting? ?

Evanescence - December 14, 2014, 10:06 am

It won't let me connect to it on FTP though ?

Cammy - December 14, 2014, 10:33 am

Tried logging in but then the site went down. Too bad.

MrTbag - December 14, 2014, 10:53 am

You can log into ftp, they send you the ftp password to your email.

I was trying to find a domain name for a hosting site im about to start up so I found out a shit ton of stuff was taken as I had thought, soooooo I started looking up stupid shit and this was one of them and it said it was taken so I checked it out annnnnnd it had a 0\$ package lol.

Run on? I think not.

Pillows - December 14, 2014, 11:42 am

Damn I was hoping for a free VPS plan. That would've been abused to hell :P

Eladictococy - December 14, 2014, 12:19 pm

This is weird lol checking it out right now.

SIM-958963 - December 14, 2014, 12:29 pm

I don't think this hosting service will work anyways.
