Thread: [Custom GFX designs Logos, banners, avatars. Paid - AND free graphics](#)

TehRealDeadman - December 14, 2014, 4:45 pm

Hello, i am new here and i am trying to get my work a bit more out there and see what more people think about it. Since i am new on here i can not post links or images just yet so if you would like to see what kind of work i have done in the past just post in here and i will send you over to my portfolio with all of my designs.

I currently have done a good bit of designs for minecraft and just some regular designs for practice which i have also included.

Hope you guys will like my work and feel free to give some advice on my work (:

I will be doing most of my graphics for free even though i would like to charge but first i would just like to see if it would be worth it or maybe donations if anyone would like? Not sure yet (:

Check your PM for the link to your avatar picture that i have created. Nothing too fancy, just a simple design.

(Dec 14, 2014 08:49 PM)Snooper Wrote: [\[CITE\]](#) PMing you right now to see if you can do something What text would you like in the banner? Would you like me to put the text that is in the example or something else a bit more custom? Or no text at all?

(Dec 14, 2014 08:49 PM)Snooper Wrote: [\[CITE\]](#) PMing you right now to see if you can do something sh.st/iXLZM <-- This is something i came up with what you asked for. You never specified if you wanted text in there or not, or what the text should be. So this is the picture without any text at all and if you like it and would like some text to be put on then let me know. Just copy paste the link

I am sorry for the absence on my part, i have been very busy with college lately and also have been having trouble with browser hijackers and recently got everything fixed. I will be continuing doing banners, avatars, and Logos for anybody that asks and for the people who PMed me a couple weeks ago regarding this topic, i will get to making those banners when i have the time within the week and post them all at once for you all. Thank you.
