Hello! I am the owner of Pulse Servers, an established hosting company that offers very powerful servers for a great price. I'm looking for people to join my sales team.

Members of this team will help me find new forums, communities, and other venues to run promotions and find new clients and sponsorship projects.

We'll do a small giveaway, find some projects to sponsor, and then offer 50% off discounts for a while. I'll also need the team to help communicate in the threads on those communities and browse threads for potential clients that I can reach out to. I'll be the only person that creates threads or contacts anyone directly, but the team will be actively posting within the community.

The sales team will also be signed in to our live chat portal when online and will answer sales questions, if any. This is not a position that requires your undivided attention for hours every day to do. It can be done while multi-tasking.

Team members will simply be actively participating in a group conversation on Skype and answering sales questions.

Requirements include speaking English fluently, having good grammar/writing skills, a microphone, and Skype/TeamSpeak. A background knowledge of game servers and Linux server is a plus.

Compensation for this role will include free services from the company. For those that go above and beyond and are very clearly bringing in a larger income, I will also compensate them financially.

More information about those services can be found in the HF sales thread, located here:

If you have any questions, please feel free to contact me via skype at kyle1826.

I would love to provide my assistance with the selling and marketing of Pulse Servers. I am a well educated 20 year old, residing in the United States. I am available most hours of the day to provide customer support, as well as answer any questions existing and future customers may have. I am looking to purchase a server myself, so I would love to represent a product I myself have once purchased.

Regards,  
Reload

I'd certainly like to speak with you further. Please send me a contact request via Skype at your earliest convenience.

I couldn't agree with you more about representing a product you've actually researched and used. That's a very good point.

I will message you now as I have free time currently to speak with you. I am actually going to make a new Skype as it has been so long since I have used it. I will be adding you in just a moment.

I've gotten a lot of PMs and Skype messages about this! I'm excited to be receiving such a large response. We're always looking for more to join our team as we expand, so feel free to get in touch!

**Tekkie** - December 20, 2014, 12:44 pm

I'm still interested in bringing a few more people on board. Get in touch with me if you're interested.
