Thread: [Hello i need help whit Darkcomet/noip/port trigger](#)

DruXMoDzZ - December 15, 2014, 9:54 am

Hello when you can help me to fix it im very happy, but now my problem : MY Victims don't come up :(my port works but when i put in the noip dns host my server don't work ! I don't know why i don't make anything :(

DruX Modz?

Dont use no ip, use chickenkiller.com, make sure you have your ports open canyouseeme.org , make sure you have them listened in DC, make sure your stub is setup for the proper dns and shit and open your stub in sandboxie to see if it works
