Thread: [\[TUT\] How To View Private Profile Picture Original Size \(facebook\) | 100% working](#)

Zac Hachez - December 15, 2014, 10:44 am

View facebook private profile picture

First Find private profile picture

copy url name after/

past in the software

wait 5-10 sec

Boom picture will appear in full size

see the video here:

Great glad you liked it you are welcome buddy :)

tibuck548 - December 15, 2014, 12:13 pm

Working like a charms thanks so much

inkbird - December 15, 2014, 12:22 pm

Can anyone give a proper vouch? it looks kinda sus.... if its only replacing code, why even have a .rar file? Just post the code

Teruz14 - December 15, 2014, 1:27 pm

Lol, Why use an application for this when you can just Right Click the picture and save it

flatbread88 - December 15, 2014, 2:21 pm

I believe you can do this just by modifying the URL without having to download a software.

ubnt123 - December 15, 2014, 4:01 pm

you can do thats without any tool with small edit

Judecca - December 15, 2014, 4:04 pm

Make a tut on how to view complete sized Instagram profile pics or even past profile pics. We all know FB doesn't truly delete anything for shit.

Mr. Lahey - December 15, 2014, 4:05 pm

Is this so you guys can have a wank over somebodys picture in full size? I don't see the point in this at all.

dhrtlockeroo9 - December 15, 2014, 6:56 pm

Thanks dude, Its working keep it up.

Best Regards.
