Thread: [How to have 2 skypes open at once \(eWhore's skype and Main skype!\)](#)

Optimized - December 15, 2014, 12:01 pm

I made this thread because 1) Aggron asked me and 2) I see a lot of people add me from ewhore accounts and 3) people tell me to add their ewhore account since they're going on that.

(Step One) Open Run

>>> Windows 8: Right click the Windows logo and it's on the dropdown menu called 'Run'

>>> Windows 7, Vista, XP etc.: Type in on search bar 'Run'

(Step Two) Type this in Run:

"C:\Program Files (x86)\Skype\Phone\Skype.exe" /Secondary

OR (32 bit computers)

"C:\Program Files\Skype\Phone\Skype.exe" /Secondary

(Finished Product)

<http://prntscr.com/5h7nkq>

Hope I helped, Thanks, Opt. ?

Dickbutt.scr - December 15, 2014, 12:02 pm

This is very much known, but thanks for the share.

y-y-youtoo - December 15, 2014, 12:02 pm

Skype has an own tutorial on this lel xd

Yeah I know, but I mean, SO many people say to me "Add my ewhore skype please" or "How do I open 2 skypes at once" so this should clear the air, Dickbutt.

(Dec 15, 2014 01:03 PM)FurtherMath Wrote: [\[CITE\]](#) maybe you should mention this is for 64 bit only?

It isn't? 32 bit might not handle so well but you should be able to do on 32 bit?

?ã?ž?@ - December 15, 2014, 12:03 pm

u can do it that way or write a quick program in vb that opens a new shell. I use to do that with xfire and id have 20 accounts in a chat room

K?i?K - December 15, 2014, 12:04 pm

I didn't knew this thanks a ton for ;)

Or you could do it my way which seems a lot easier...

kek, it's cause there is program files and program files (x64) or something like that, the guy who said that it doesn't work for 32 bit is a moron

Optimized - December 15, 2014, 12:08 pm

(Dec 15, 2014 01:07 PM)FurtherMath Wrote: [\[CITE\]](#) missread thread, I thought you were opening 32 bit version and then opening 64 bit version to have 2 open but you're just opening same one twice.

Yeah sorry for the confusion. :) It's not your fault. :)

tosher1011 - December 15, 2014, 12:28 pm

Cant you just sandbox one aswell? Wouldnt that work?

this is easier then making a virtual machine, if you meant that.

uk badboy - January 13, 2015, 11:54 am

Hey guys can anyone try and get me this guys ip please i cant seem to get it and pm me thanks.

iefkeindahouse

G1ngur - January 13, 2015, 12:00 pm

This is genius!! Thanks for sharing how to do this!! Will definitely be using...

Punisherr448 - January 30, 2015, 8:02 am

Just open one skype in Sandboxie :-)

Audacious - January 30, 2015, 2:09 pm

Thanks, actually had no idea about this... Will come in very handy ?

sasquatch' - January 30, 2015, 2:38 pm

Vouch for Optimized, method works 6/9.

b?xxy - January 30, 2015, 3:10 pm

This is very much known, but thanks for the share.

??¢??????? - January 30, 2015, 3:11 pm

Was that CHF in the picture? lol :?

mrburnz - January 30, 2015, 4:28 pm

Didn't know this worked, thanks for sharing.
