IOI THAT FORMATTING. Anyway, GLWS OP.

You can open notepad from within the locker? Dumb move if you ask me, you can from notepad access your files. Correct me if im wrong

elipheleht - December 16, 2014, 10:29 am

I checked it out to buy but nahh man the price is too high.

Slash it to below \$10 man. Lockers are everywhere. Moreso this is not an encryption locker.

Good luck with sales

Again @ OP , show us the pictures of the Advanced Panel. I wanna see for myself

Wow, looks nice. Just a question, could I set something up where they don't have to do a survey? For example: they email me there account details for whatever, then I reply with the code.

Yes you can. Whats the problem? The locker is unbeatable. Because notepad came to the protected area doesnt mean that any process that opened from notepad will come to the protected area too.

Yes you can but this will ruin the locker's automation process, because you reply back to the victim... Set up a custom message box at startup with instructions. 2) Insert unlock code in the program. 3) Put something else instead of survey link.

If you compare galaxy locker with Outworld you will see why the price is so high. Anyway thanks.

Damned I was pretty wrong and misinformed about this locker. My mistake.

This locker is as sexy and just the panel makes me wet already.

Everyone, Do not hesitate to buy this product!
It is sexy !
I vouch for this guy

Many guys know I do not lie nor give a biased report on a product (check my profile to confirm as I have gained all my reps from speaking the truth)

Any vouch copy ?
Would make a detailed review..

Skipi1111 - December 21, 2014, 11:17 am

Wow it's nice.

Can u give me this with 1day license to test ?

you surely got a grate locked, but it should be in the premium sales section.

ubnt123 - December 22, 2014, 11:05 pm

look nice coding i would love to order it but your price is high,good luck though

if you already make a 1 day licence please contact me ,im interesting in it

Thank you. I can't post it in premium section because my account is not uber or l33t.

Thanks dude. The price is too high because of the unique locking way and the web panel... Maybe i'll consider to lower the price a little... What you can do with 1 day licence? I believe its pointless.
