Thread: [Modders-Heaven | Gaming / Networking / Computing & Technical Support \(MUST SEE\)](#)

0BL1V10N - December 16, 2014, 12:03 pm

Hello My beloved HF Users

I'm requesting a Review/suggestions/Team leaders/Game Servers Admins from which will help me improve the service

[img]http://modders-heaven.co.uk/images/logo.png[/img]

<http://www.modders-heaven.co.uk>

We are a friendly community forum / Gaming Provider. The subjects involved with this project are:

Gaming And Networking

General Discussion & Support.

Some time ago we was modders-heaven.com, Forum had 23.000 plus users but after the xbox jtag scene died we closed it down. Now we have gone for a revive because we are coming more back to gaming. And have a good few dedicated servers More then we need atm.

We have several dedicated servers running the forum, games servers, ts3, irc etc etc. obv its not super popular yet and its just been put back online

I have spent many days setting things up and would love your views on our community. That said we can pretty much run any game server that runs of Linux.

Soon to come to hf, VPN sales and super cheap VPS. But we will also be looking for trusted members to help us with certain things might even give a few ppl a free game server to help populate things a bit

But give it a review, be honest. For ppl that are looking to join loyal gaming community can msg me for more information we will be looking for new game server idea's, staff , Game admins and much more and even maybe ill give free services to guys who can be trusted, as this will help things more.... hit me up / reply to this tread

We would also like idea's for games and would like for people to help us run things from php coding to game server setups even just being a game admin

We have a few game servers running that are getting popular but need to add more like minecraft.

Running all this shit takes hours of my time and my friends time as well and i will no way be able to run many game servers and the forum on my own.

So please give me idea's we are looking for posters, minecraft admins you name really. give us a go and reply / PM if you wont your own game server in which to help get thing rolling when i say

your own game server i mean like a joint partnership as such where say minecraft that we have not setup yet

It will always be my server but you control . it will be a long blast with MH . thanks for taking the time to read this :)

Wires - December 16, 2014, 12:51 pm

First of, this thread is fugly as fuck and hurts my eyes.

OBL1V10N - December 16, 2014, 1:24 pm

Oh well, im sry i can not make a thread style to your like ?

Megatron - December 16, 2014, 3:21 pm

I went to your site and it just looked all up in my face. I think you should make a new theme that appeals to the eyes. You should also remove the ads and upgrade section. This is a small site, your main focus should be to grow and not to make a lot of money, because...you won't.

OBL1V10N - December 17, 2014, 8:04 am

Yeh i know thanks for the feedback dude :0

Nasyr - December 17, 2014, 9:03 am

You need to update this thread and make it more cleaner, the forums also need a lot of work.

OBL1V10N - December 18, 2014, 12:07 am

Yeh thanks thats why im here asking for advice please keep the feed back coming

VoidF - December 18, 2014, 3:55 am

Your theme and logo doesn't match at all.

Please change the theme as many forums are using it.

Good luck. ?

Friendly HF User - December 18, 2014, 3:57 am

Theme doesn't look all in well, I'd suggest buying a custom one.
