What is the point of posting this thread? Look though the marketplace and decide what you think fits you best.

Lionheart - December 17, 2014, 7:37 pm

I would buy if i was you zynenstresser.us

bajsjonte00 - December 17, 2014, 10:36 pm

networkstresser.com hits pretty hard but I've only tested it on home connections.

There is no point in posting the same thing on every thread.

High quality ones for taking down big shit cost alot tho, the cheap booters are mainly for taking down home connections i think.
