Thread: [\[HOT\] - NEVER DO HOMEWORK AGAIN - Still get A's!! RE-OPENED!](#)

Deployment - December 17, 2014, 9:43 pm

Hello HackForums, Deployment here. It has been over two years now since the release of my "Never Do Homework Again" eBook. For those of you who are new to the subject, my last giveaway thread for this eBook was closed by an admin because it exceeded the maximum number of replies. You can view this thread [HERE](#)

I have savaged my old PM's and computer in search of this eBook and have successfully found it and re-uploaded to a more reliable source. It would truly be an honor if this eBook acquires the potential for two threads to be maxed out in posts!

I am also planning on re-writing the eBook to work with College Level classes as well featuring an entirely new method. Stay Tuned!

With all of that being said,

Would you like to never have to do your homework again?

Just PM me for the download link, and expect a response within 24 hours!

Thanks,
- Deployment

xLoneShadow - December 17, 2014, 9:49 pm

You want to be a famous doctor, but you're failing terribly? I see why you're here on hackforums

instead of studying you uneducated idiot. If you want to chase your dreams you gotta do something to make them come true, and in this case realistic.
