This is not made by me, I found it on another forum and wanted to share it with you. I won't answer questions about this and I don't take credits for this.

So I'm going to make this...

Into this...

Step 1:

<http://k.min.us/idv9Vq.jpg>

Step 2:

Step 3:

<http://k.min.us/ibeiyu.jpg>

Step 4:

<http://k.min.us/ibajlw.jpg>

Step 5:

Navigate to Edit > Transform > Warp.

Step 6:

Step 7:

Step 7:

This is optional. But if you have a Grunge brush, you can use it as an eraser with a high Opacity and a low Flow value to make the pen look like it's partially worn away.
