Thread: [iBuyWithCoins.com - Automated Crypto Shop Is looking for a partner!!!](#)

Theshadowbehindyou - December 19, 2014, 1:20 am

Hey guys well I just recently opened up a automated shop.

www.ibuywithcoins.com

This site was just launched 2 days ago and loook at my sales =D

I am looking for a partner who can obtain Netflix, Hulu, minecraft, and other types of accounts.

I can easily import over 12k lines(tested with my 12k rooted Linux servers) in just under 5 seconds.

If you run a account shop I see most use exe generators well I can offer you a better service. My site can mass upload those accounts and when someone purchases it they will be given an account and deleted from the database.

Also all payments you can track as there is a tracking counter so you can see what is sold and how many quantity so it would be easy to calculate how much you have made.

All profit from your accounts will be 50/50.

If you have something else you want to sell I can do as well. I plan on selling software and private made sources as well :)

Wow this is impressive man, If I purchase a linux server will I get root access?

And, is there any guarantee on how long they last for?

And, is there any guarantee on how long they last for?

It will always be root and I've seen some where the owner hasn logged in for months!

By the way this is my partnership thread not sales thread

You never replied back.

Still looking for a partner.

War On Retail - December 19, 2014, 4:38 pm

I can do the accounts and I have a few software I could sell as well
My question is who does the advertising?

My question is who does the advertising?

You do the advertising (My site itself will be having traffic from bitcoin forums.)

I offer the automation. And tracking of all sales etc.

i can sell netflix , hulu & spootify buddy outside HF :) Try me anytime

Zero ?? - December 22, 2014, 3:02 am

Users be careful with this guy, I added him on Skype to talk business with him and then suddenly he began acting childish and just deleted me without no reason.
