Thread: [Official ETA for the server.](#)

**Edward Snowden.** - December 20, 2014, 2:08 pm

I've been discussing through private message with Omniscient and now I can tell you the official ETA for server answer will be after the new year as Omniscient told me. Please understand we are all humans with obligations in life.

His quote :

Quote: You have to wait till after New Years to finalize this. I have too much going on.

I've attempted a last try to get it done before that time but I won't insist more as Omniscient is already generous with the time he spare to hackercraft.

I wish great holidays to everyone,

Gabriel.

That's awesome that he's going to let you run it :)

You should buy another server to work on HC in the meantime

**Hazy** - December 20, 2014, 2:10 pm

I might play MC for the first time ever when HC releases. Is there any way I could "practice" a little bit so I know what it is all about?

**Optimized** - December 20, 2014, 2:12 pm

Just to clarify, I bought the \$20 rank on the server when robust was running it, will I get that rank back? Thanks Edward; you're gonna be a good owner.

**agdnjahakbg** - December 20, 2014, 2:13 pm

Lets hope that he'll let you run it for the foreseeable future :-)

**Edward Snowden.** - December 20, 2014, 2:17 pm

Omniscient has still the final word. Don't forget it. All rank would be honored as well every purchase such as mcmmo etc. It's part of the deal and even if he didn't request it I would've done it.

Nah, I thought practically, and decided it would be wise to give it to you. Great owner on the way. Prison Break is over too. Shitty ending. Rewatching Dexter now, an episode a day. Dexter was quite good. Kinda getting bored though because my memory is telling me the story again. So next maybe The Walking Dead or House of Cards, one or the other. Or re-watch S1 PB hue.

I get to keep my POW3R upgrade now right?

I paid for it again when the HC v2 with Robust came online.

I rarely came online after the upgrade but I have all proof of my upgrade

I feel bad for Omni, he can never find a good owner to run the MC server. But I guess most good owners, already run their own server so yeah.
