Good morning!

Today I have 4 brilliant methods for you to enrich your mind and apply some new skills.

- Black Ops Hypnosis (Subconsciously making people follow your demands/suggestions)
- Twitter Jacking Method
- Making \$300 (rinse and repeat as well.)
- Unlimited Xbox Live

All this for \$12.00 BTC.

PM to purchase!

NO MORE VOUCH COPIES. It's already been reviewed below. Stop pming me you leachers.

Have a nice day. <3

Overall Collection

Grammar: 10/10

Instructions are easy to understand and would be great for almost anyone.

Ease of use: 10/10

Methods are easy to execute and can be done by anyone

Originality: 8/10

one method in this collection of ebooks not saturated but isn't the first time I seen it.

Overall: 9/10

This collection of ebooks are worth the price and provide great information.

Twitter Method:

This method is black hat and quite easy to get some pretty good twitter accounts. It does require a little tech know how but This is the hook walks you through it with pictures and text.

Unlimited Xbox Live:

Very easy to follow and will get you many codes for Xbox live. I was surprised This is the hook would include this method for as cheap as he did.

Making \$300:

This method will require patience and a brain. It is black hat but worth the items you could receive.

Black Ops Hypnosis:

I have yet to try this but I will update this once I can get the resources to test it.
