Really nice theme rep+!

I think header is a little to big.

I have to admit, that looks quite cool...

In my opinion the header is a bit too big, but the rest looks great!

Zettabit - December 21, 2014, 2:36 pm

The top bar is a little bit too big for my liking, but other than that it looks pretty smooth. Nice job on this OP.

I really like the design and stuff but you should resize the header a little bit. Would really make a huge difference and clearly make it look even more perfect.

A customizable header size would be nice, other than that nice theme. :)

Great job, stealing someone else's theme

Don't see OP claiming the theme as his, but I don't see him saying it isn't either.

OP please do add credits.

Awesome theme, but as others said header is little bigger ;)

I do like it, even though its hard to like a flat theme who ever made did a great job. Nice work!

I do not claim it's mine, and I did not removed any credits in the source code.
