What's your worst Christmas gift, you were given?

Mine was, a Pencil Case. (When I was 7)

I get nothing for Christmas usually my last present was I think some toy when I was 10 sense then I've never really gotten anything exicting people generally remember to give my sisters something but they never get me anything. To be honest I got used to it.

It wasn't the worst but I was annoyed, I asked for an iPod when they first came out and was given an MP3 player.
