Thread: [FREE SMS BOMBER API = MAKE YOUR OWN SMS BOMBER](#)

Hopeful Goods - December 21, 2014, 9:40 pm

I will be selling these soon and just wanted to get some debuggers.

This is the format of the API..

phonetest.me/go.php?number=607,244,9595

Make sure you have it formatted correctly!

Do not try to RCE.. I will know who you are..

Please post input below!

WhosYourDaddy - December 21, 2014, 10:10 pm

Which all countries does this API work in ?

Do you guys allow Asian countries?

d0s000m - December 22, 2014, 12:19 am

That only works for ATT USA?

Because you send it to the "Phonenumber-Email-Addresses".

Condoms - December 22, 2014, 12:31 am

"Do not try to RCE.. I will know who you are.."

What does this mean?

What does this mean?

I'm 50% sure he means don't resell ?

bewik - December 22, 2014, 3:44 am

<http://phonetest.me/> content "what?"

lol please explain the site I want to use that for 3:D

Aeolus - December 22, 2014, 5:14 am

Is it worldwide?

Send me the API! Thanks in Advance

What does this mean?

RCE means remote command execution. Since this runs a shell command to send over SMTP, I don't want people trying to root my box. This basically lets people know that I am aware of security

and have taken accurate measures.

lol please explain the site I want to use that for 3:D

Well, it was an API, but I guess I will make a GUI for people who do not understand what this is.
