Thread: [So hard to find a FUD Icon !](#)

nerull - December 22, 2014, 1:54 pm

Hi !

I would like to know how you do to find a fud icon

I found PNG on Google and i convert it online (<http://image.online-convert.com/fr/convertir-en-ico>) then with ResHacker i change it .

But 90% time its detected , so i have 2 icons really fud .

i tried to create one PNG 512px with photoshop , then convert and its not fud but it is unique and HQ ?!

maybe i miss something

any idea ?

GiimpeN - December 22, 2014, 1:57 pm

Just take some big ass icon and it will be fud. And don't use same icon too long.

Maybe scan FUD but not runtime :p Just buy a private crypter and you gott long time FUD scan and runtime.

nerull - December 22, 2014, 2:12 pm

i tryed now with a 1000px picture and after convert the icon is detected.

Cant undertstand why .. if i cant choose icon it will be hard ...

is it possible to create an HQ icon easily . i keep trying since 1 hour . i cant . Each one is detected

Lol bro just use a crypte

Theiir good

nerull - December 22, 2014, 3:19 pm

i have a paid crypter ! its 0/34 fud . and has no icon

if i delete version info (and i always del it) i have 2/34 with gen detection

after icon inject : 1/34

after file pumper its : 0/34 again with an HQ icon

but my problem is to find HQ icon and i would like to create it

because i have to bind my stub with an other legit exe and the iexpress icon sucks

Paranoid? - December 22, 2014, 3:20 pm

I have the same problem. Just use another icon.

ok good to know that im not alone :D lol its verry anoying

_Raw - December 22, 2014, 6:02 pm

if you looks for icon like adobe, ms office, browsers most of them are detected,
choose some other icon.

Banfixor - December 24, 2014, 6:27 am

Yep, the best is to get a private crypter

jessman420 - December 24, 2014, 6:28 am

If your crypter is good it will be fud with no icon and blank assembly data.

Furz39 - December 24, 2014, 7:17 am

better buy a private crypter.

greetings

Uptake - December 24, 2014, 8:23 am

In most cases, a single icon found eg on Iconfinder will do.

Anonimi - December 24, 2014, 8:49 am

find icon from this site. [viconarchive .com/](http://viconarchive.com/)
and use this site ICO/PNG, [convertico .com/](http://convertico.com/)
