Thread: [Steam account with DayZ SA + DayZ Mod \\$10](#)

Dwight Schrute™ - December 23, 2014, 11:30 am

Looking to get this sold relatively soon that's why the price is so low. It comes with other games other than just those two.

Spoiler ([Click to View](#))

CSGO is vac banned on this account sadly, but the account is worth well more than just \$10. Get this account while it is so cheap.

Add me on skype or PM me here on HF.

Does this include the SSFN files?

I have someone who's looking to buy.

I have someone who's looking to buy. IDK what SSFN files are. But I can change email and pass to your liking. Getting full access of account.

They're found in the Steam directory, there are two files named ssfnxxxxxx where the x's represent random characters. If you can retrieve these files it bypasses Steam Guard, which is the main reason I need an account, to trade!
