It was fully custom made so it got little weird when i fully editing it, its a easy fix, i will update it in a few moments.

Well it looks pretty decent.

It's not really the best good-looking theme here but it's clearly not the worst one either.

Keep up the good work man ?

Btw, you owe me a cookie for giving feedback about your theme.

I get this error when I paste it in class.vb ('G' is not declared. It may be inaccessible due to its protection level.)
