Thread: [VB / C# - Link me your themes / source releases!](#)

Programming - December 24, 2014, 6:05 pm

I'm building a database of VB, C#, and C++ Themes, Source Code, and tutorials for something I'm releasing soon.

Please link me to your threads of any of these of you releasing the source / theme to ANYTHING .net related. My plan is to have the DB filled with 500 sources by tonight!

+Haze - December 24, 2014, 6:09 pm

Here my source code..

```
Code CheckForIllegalCrossThreadCall = False
Put that there. Thanks.
```

Programming - December 24, 2014, 6:10 pm

Vouch
```

In all seriousness, do you have anything you've released to HF?

+Haze - December 24, 2014, 6:14 pm

I have in the past, but this was when I was new and looking back at the src. I feel to hang my self. Anyway, uhm, I don't release much src I just a general helper. Good luck though.

Odus - December 24, 2014, 6:17 pm

Bit late on the theme train mate: <https://hackforums.net/showthread.php?tid=4597151>

This is different. That's just a repo for themes. This is a search engine for themes, source code, and tutorials.

tweety - December 24, 2014, 6:40 pm

Why don't you do the research yourself and collect them..? You can easily Google them or use the search button.. ?

Programming - December 24, 2014, 6:41 pm

I have been, but you know, there's a ton of themes. I can't get them all.

If someone could grab their own theme and give it to me to save 3 minutes of searching, that'd be nice..

SIM-1847363 - December 24, 2014, 6:55 pm

I guess if you want my half-assed themes xD there are some in my thread list.

Link to my threads:

<https://hackforums.net/search.php?action=results&sid=e2132df293646cf88b7dcbd584c5d3a6>

Tostig - December 24, 2014, 7:56 pm

Alright, I've just RAR'd my entire "Developing & Sources" folder for you. Look through it and see if there's anything you like.

I'll edit this post when it's done uploading.

Hawk HF - December 24, 2014, 8:23 pm

Here's a few of my recent releases:

Onlykl Theme: <https://hackforums.net/showthread.php?tid=4583315>

Morphic Theme: <https://hackforums.net/showthread.php?tid=4572172>

Pro Controls: <https://hackforums.net/showthread.php?tid=4471197>

Feel free to pull the Bonfire. and Web Themes from here as well:

<https://hackforums.net/showthread.php?tid=3930319>

I would assume Xertz would be cool with you using his themes from that thread as well, but that's not a question that I can answer.

I have more, but they are old and I'm not too proud of them. :\

TRH4CK - December 24, 2014, 8:25 pm

Would a keyboard light fcker be interesting xD ? Not sure if thats a cool stuff but I find it funny, especially if its ran on ratted pcs...

NETExplorer - December 24, 2014, 8:55 pm

Your shitting me, right?

<https://hackforums.net/showthread.php?tid=4597151>

way to be original ?

Nigga it's a search engine for tutorials, themes, source code, etc.

Yours is like a repo.

Tedd - December 24, 2014, 9:11 pm

Here are a few of mine. Just ones worth anything still, all my old sources would need to be updated.

I/O and Settings

Very Simple I/O *.INI Reader

<https://hackforums.net/showthread.php?tid=3989288>

GDI

Advanced Curved Rectangle and Pill Functions
<https://hackforums.net/showthread.php?tid=3938817>

Aresio
<https://hackforums.net/showthread.php?tid=3932947>

Gray Theme
<https://hackforums.net/showthread.php?tid=3941135>

Listbox w/ Scroll Bar Framework
<https://hackforums.net/showthread.php?tid=3121398>

There is literally no difference

I can make mine a 'search engine' by adding a fucking search box

Why not just Control + F?
Boom, you got yourself a working search button!
/s

Op: lordpankake.bitbucket.org/vbthemes.html
Haven't updated in awhile, but theres lots of themes here. You can also go on pastebin and search things like "src" "vb.net", "source", etc.

SaketSaket - December 25, 2014, 1:41 am

Few of my themes -

Oh everything you have is on there already. Your themes, source, theme bases, etc.

\$lick - December 25, 2014, 12:42 pm

Would a plugin base for NanoCore be okay to add?

I hope that you like these.

zeroexp - December 25, 2014, 12:51 pm

No offense to the theme makers, I know it's not so easy to create a good theme but, holy shit, the amount of themes in the VB.NET section is HUGE. We should call this the .NET Themes section instead. lol

Tedd - December 25, 2014, 1:43 pm

Then how about you contribute some other shit then? People like making themes, it's what is popular right now. Jesus fucking christ how many times are people going to bitch about it.

Then do it, fuck. I don't understand why you are so bitchy lately. You built something that I and literally dozens of people have already built before and you bitch like you discovered the fucking Da

Vinci code and someone stole it from you.

This is true. I wish our current theme-makers would put a little more time in to projects and be a little more creative. Seems like everything theme made recently has been very basic. It's usually the same few controls with different colors. I usually try to add something new in every theme I release.

Also guys, are we really bitching about who's bitching more? :P

Calm down and live life.

Malcolm???????????????? - December 25, 2014, 2:59 pm

Take some project sources from my old thread here :)
