Thread: [FindTheirIp.com / Free Skype Resolver / Fast / No Captcha](#)

Drizzy?? - December 25, 2014, 7:44 pm

Short and simple, free working Skype resolver. Visit us at <http://findtheirip.com/>.

Let me know how it works.

Wilbo007 - December 26, 2014, 4:33 am

Works flawlessly, so simple and clean.

Thanks :)

D1Ve - December 26, 2014, 4:42 am

Works perfectly and fast aswell!

Thanks a lot ;>

EDIT: I suggest an output when it can't get someone's IP, so people don't get confused.

20141218 - December 26, 2014, 6:03 am

It's actually quite impressive. Thanks for sharing.

Nice and clean work.

Absolute Greatest - December 26, 2014, 3:25 pm

Vouch for this, my new go to resolver! :)

iSic_ - December 26, 2014, 4:37 pm

Vouch. Not the fastest, I have to admit, but works great!

Thanks again, Drizzy! Love your work.

Nythil - December 26, 2014, 6:07 pm

nice work :)

clean simple and fast Vouch

Rubdiogo - December 27, 2014, 12:15 pm

Flawless... Great work bro! Keep it up!

chaze - December 27, 2014, 3:20 pm

Works great, thank you and good job!

Original™ - December 27, 2014, 7:13 pm

It works good man, thanks! ?

Shed - December 28, 2014, 5:07 am

Vouch for ?Drizzy

It gets my IP within a few seconds.

Drizzy?? - January 3, 2015, 3:09 pm

Selling APIs now. Only \$3 / month for unlimited resolves, or \$10 lifetime. (of the resolver)

mechic123 - January 5, 2015, 2:44 am

Vouch, works flawlessly thanks! ?

? Soufian ? - January 5, 2015, 5:36 am

Nice & clean resolver, but it's not smart to depend on 1 API.

Add some more API's and it'll be the perfect resolver.

Sabol - January 5, 2015, 5:47 am

Nice resolver, I just have a warning for you as I had a friend that ran a resolver and advertised it on HF.

From what I saw, he advertised it on HF and the next week it was the main target. Botnets were hitting it everyday, people were flooding it with requests even with CloudFair.

Just a warning on things to look out for, goodluck OP! It's great

Edit: It can't resolve my Skype username or any of my other Skypes, might need to get a few API's.

Results

Skype: packetsniffing,

Resolved IP:

Well I think we found out where your API comes from.

Sabol - January 5, 2015, 5:50 am

Results

Skype: packetsniffing,

Resolved IP:

Well I think we found out where your API comes from.

Funny thing is, even that website isn't good. Shit mayne

KNOWLEDGE - January 5, 2015, 5:57 am

Doesn't matter if there is different APIs, all you have to do is set
tools>options>advanced>connection>Allow Direct Connections From Contacts Only.

Now you can't be resolved..which is why Skype Resolvers are dying.

Drizzy?? - January 5, 2015, 10:16 am

Resolver is back up and working. Thanks guys.

Nimble - January 5, 2015, 5:54 pm

Works flawlessly and very fast aswell! :D

QyXy - January 5, 2015, 6:55 pm

Works great man! It resolves the ip quickly and has the bare essentials. I hate when a resolver forces me to click through ads and then type a captcha.

joop_ - January 5, 2015, 7:09 pm

Works amazingly! Thanks for the contribution

Drizzy?? - March 14, 2015, 9:43 pm

We're back up. Check us out at <http://findtheirip.com>

Fallen21 - March 15, 2015, 1:11 am

you can modif you resolver, for add, accounts system, API for user, captcha,
