Group Podcast #9

For this post-Christmas episode of the Studio podcast we talked about Red Lions and its perceived inactivity, the computer security group Null being sold, Revolution having its subforums being available for rent, the addition of the Nightfall Gamers in Nightfall, and what everyone did for Christmas. If you have any comments or suggestions regarding our podcasts please let use know in the comments or in a PM. Let us know your ideas for what we should do or who we should invite for our tenth episode.
