Thread: [Can anyone teach me free or paid?](#)

DevourerOfLife - December 28, 2014, 7:58 am

I just need someone to teach me money isn't that bad but i would like it for free. If anyone can just add me on skype. I would like to learn preferably everything you know about hacking programming, SQLi, stuff like this my skype is Khal Djameryn Tyrell.

† **Flare** † - December 28, 2014, 8:03 am

If you really need help, you should've PMed someone long ago. Again, we aren't really obliged to teach anyone what we know, it must be you that makes the first move. However, if no one offers, you can PM me if you really need help, I only do XMPP or by PM till I trust you with the Skype :)

DevourerOfLife - December 28, 2014, 9:16 am

Well that was an experience i just got scammed and then refunded by paypal, okay no more teaching. Just tell me what i have to learn like what programming languages how to check website security things like that. Well i dont have enough to PM i guess XMPP could work? Can you PM me?

† **Flare** † - December 28, 2014, 11:07 am

If you can use XMPP, that will be great. If it's just a few questions you need answered, post on this thread those questions. I do prefer XMPP over PMs or thread replies.

Revamp - December 28, 2014, 11:14 am

Why don't you read some tutorials on the subjects you are interested in?

FX 97 - December 28, 2014, 1:19 pm

We have a bunch of tutorials on here, infact we have an entire section dedicated to SQLi and stuff. I suggest you start there.

DevourerOfLife - December 28, 2014, 1:48 pm

Flare i can totally use XMPP if thats what you prefer.

azale? - December 28, 2014, 3:11 pm

Bro, the whole hackforums is dedicated into helping you with learning sql...etc. In fact, most hackers that are very advanced they were self-thought using this forum and other forums.

DevourerOfLife - December 28, 2014, 3:17 pm

Ok i get it can someone just send me links to SQLi and learning HTML and CSS.

Niely - December 28, 2014, 3:17 pm

I don't teach anyone.

But if you've got any questions feel free to PM/PM me your thread including question and I'll help you out with any question. :)

You damn kids so lazy you can't even navigate to a section now days? You got a long, boring life ahead of you.

xvapur - December 29, 2014, 7:08 pm

I agree if i can help in some way PM me too , i will try to help you
