Thread: [Fastest Proxy Scraper | PHP | Webbased | For your 1337 needs.](#)

SIM-2223238 - December 28, 2014, 8:17 am

Whatsup guys, Ive made a little project that automatically leeches proxys from websites for you (it doesnt scan them), but it automatically updates itself daily,

You can get 30k proxys per day, you maybe have to check them for non working proxys or duplicates, but I promise you 90% of them work.

I am not requesting ANY money for this project, its 100% free, only thing I want is that everyone leaves a thanks when you used it :D

Please donate some blogspots that post proxylists daily, so i can put them in my leecher.

Credits to Zidane for helping me with making it 1 proxy per line :)

AutonomousGirlFriend - December 28, 2014, 8:27 am

thanks for this share im goign to check it out :)

Headwiki - December 28, 2014, 8:52 am

Again, thanks for your giveaways Aggron!

I would love to sponsor you with a domain name for your service, hit me up if you are interested ?

La Cocaina - December 28, 2014, 8:54 am

Any possibility you could add a new line every proxy?

That'd make it really good.

Anyways, thank you very much OP.

Thanks so much for sharing this. Every one I tried so far works, quite amazing really.

System32.dll - December 28, 2014, 2:00 pm

I loaded it up in sentry mba and it was bad. I ran it through poison proxy checker.
