Thread: [Unknown RAT Error {All RATS}](#)

**hellrisen123** - December 28, 2014, 9:56 am

It seem's as if no one can solve my issue, my ports are forwarded, my firewall is off along with a AV, i am using im3, i am using a new dns that works {Trust me}, and yet the connection still wont show up...

**Priscilla Dickson** - July 4, 2019, 6:36 pm

The setup up file may not be complete or a file is corrupt. Try downloading a new setup. It should work that is if the files I'm are not complete. I had a similar problem worked for me.

**Exeter** - July 6, 2019, 11:46 am

try with reverse dns (127.0.0.1) and see if it show connection by running the server on the same PC. Tell the result here so We can help you more on it.

**Vagabundo Legendario** - July 7, 2019, 5:15 pm

Post a picture of the config
