Because your exchange does not offer the service indicated in the title.

The title claims your exchanging peoples PayPal into Bitcoin at a 13% rate.

You: Sending him \$100 BTC

Canada: Sending you \$110 in PayPal

That's the 10%.

Whatever amount in BTC you're sending Canada, calculate that amount by 1.10 and that'll be the amount you receive via PayPal.

Happy Trading!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,  
Stanley
