Okay, so this guy added me yesterday:

Claiming to be an CSGOshop.com admin, as you can see by his profile.

Everything looks legit, he also had a Steam REP Thread linked in his profile, but he removed it after I commented on it he's a scammer, here's the Steam rep thread:

<http://steamcommunity.com/groups/CSGOREPorts/discussions/5/627456486423630120/>

So I just want to make sure nobody deals with this guy, I've made a report on SteamRep already:

Better to be sure and help traders here out than anyone of you get scammed by him..

Peace
