3P1C is a secondary, custom usergroup which you can purchase for \$13 in Omnicoin by using the Upgrade tab at the top of the site. Welcome back!

An additional upgrade. You can read about it [here](#).

Its a 13\$ group upgrade that is below l33t and has MAJOR LESS FEATURES.

I'd save up for l33t and not get 3p1c.. the features are humungasly different and its like 5\$ difference.

If you were really that active, you would know where to look to find out.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

You can read about it on the upgrade page.

hackforums.net/upgrade.phpHe's already ub3r meaning he doesn't need l33t.

3p1c is a side group.
