Thread: [keep it up or leave it?](#)

Hi there guys.. I've been supporting OMC for about 4 months already... I'm mining them with a bit more than 2GH/s (2 gawminer fury's) and it doesn't seem to be worth it... I get 100 OMC per day of mining.. (that's something like \$0.20)

Should I stay with OMC, or should I just deal with the fact I ain't getting sh*t.... ?

EDIT: Happy new year everyone! :)

I believe you mean 2 MH/s ;)

Consider all of your options. How much would you make mining any other coin?

Check out [CoinWarz.com](#)

The most you could be making on any other altcoin is 12 cents per day. 19 cents (according to AllCrypt) per day on Omnicoin is much better.

Oh damn.. Yeah I was working with some BTC stuff and I automaticlly wrote GH/s ???

Yeah, I thought MH/s. Sorry for that.

Well.. Okay and thanks for reply, I hope OMC will rise big time. Gonna stick to them for now. ?

Happy new year mate!
