I took this picture awhile ago with my iPhone 5s.

Edited it a bit today, I know the editing is obvious, but tell me what ya think.

Update - December 30, 2014, 6:10 pm

Looks good. Background looks a little bit foggy. Sometimes happens if the leaves or branches are moving. All in All, looks good.

inkedirishmen - December 30, 2014, 6:27 pm

Really cool shot! I like scenic pictures a lot! I need to get my camera out and do more around water. They always seem to turn out the best with natural lighting. What camera are you using?

Damn homie, I appreciate it a lot. Thanks, and yeah it was a little foggy/blurry I guess because I was in a rush haha on a hike :/

I appreciate the feedback homie. I was using an iPhone 5s. It really does work wonders when the lighting is good.
