Thread: [SELLING CSGO INVENTORY COME TAKE A LOOK](#)

iloominati - December 31, 2014, 9:33 am

Counter-Strike: Global Offensive

If you have any inquiries for an csgo item please post the item you are interested in and I will get back to you via PM with my Skype ID, We can discuss the percentage of market-price for the item ect. I will only be using BTC because I have been scammed paypal before trying to sell my ak47 stattrak redline.. We will most definitely be using a middleman to safely insure the outcome of the transaction. We will use Package, if you have another middle man we can discuss and we can use him instead if I deem him trusted. Thank you, post away!
