[CHEAP & BEST] SPREADING SERVICE

Hello HF,

This is my spreading service the cheapest on HF. I will spread your server within 2 days, If its 800 or 1K I may need 4~5 days.

Available Packages & Price :-

*Extra \$7 for targetted spreading.
30 Days - 25\$

4000 Downloads - 40\$

8000 Downloads - 70\$

Readme :-

*Spreading is counted on downloads not on victims.

*I won't crypt your file so you should crypt it and test before purchasing any package

*If your file is not FUD or It has any dependencies, you will not get many executions, I will not be responsible for that.

*Once I finish spreading your server, I will delete your files from the filehost and PM you the proof of downloads.

*Pm for payment methods.

If you are interested you can post here or PM me.

Anyone can download a file any number of times and claim they did the spread. You offer no proof of slaves, not upgraded, no mention of spreading method.

Deal with extreme caution:

This is a interesting service you provide, but you should add more information about your spreading technique, and how many downloads u can avg/day.

30 days spreading = 25\$

8000 downloads = 75\$

So, i assume for 8000 downloads = u would need 90 days spreading

Hi, I coul be very intrested in your service, what kind of slaves do you spread and what countries. Thank you

problems.x - January 2, 2015, 12:26 pm

You should really get more rep and vouches then people will actually buy. That's why i'm asking for a vouch copy.
