Thread: [\[\\$4\] ULTIMATE Spreading \[GET HUNDREDS OF SLAVES\]](#)

problems.x - January 1, 2015, 4:28 pm

Ultimate Spreading ebook

So this ebook is a very simple ebook with 7 methods that have worked like a charm for me. It's not that hard for all of them, and it is very beneficial.

You're not going to get like 5000 slaves in 30 minutes. But you can definately get a lot on depending how much work you put in.

THESE ARE ALL PRIVATE METHODS

Requirements:

Half a brain

Computer

Internet

Optional (MC ACC) - 1 of the methods :3

I recieved a vouch copy from OP, and indeed, This is a really great ebook, no grammar mistakes and easy to understand

Here are the good things, and bad things in this ebook

The good things :

1. Instead of 1 method, it has 4 methods, AND a bonus method.

2. Great grammar.

3. Great support.
4. Easy to understand.
5. Easy to setup.

The bad things :

1. There arent any bad things, this ebook is PERFECT (Jan 2, 2015 02:48 PM)l0lfighter Wrote:

[\[CITE\]](#) So I received a vouch copy of this, and i really have to say that it a really nice ebook.

The layout of the ebook is simple, actually not really existent. But even though this would normally be a bad thing, for this ebook it's actually a good thing, because you simply dont need more to understand everything.

It comes with 2 methods to get girl slaves, which i haven't seen anywhere before and which i believe can get you A LOT girl slaves.

There also are 4 different methods on how to get gamer slaves, and i do have to admit that I've already seen 2 of them and the other 2 aren't that original as well, however they i believe that they should still be working fine and if you're doing it right these methods should still easily get you a lot of slaves.

The bonus method is also not that unknown, but still working quite good and should get you quite a lot of slaves on autopilot.

Overall, i have to say that these methods are not extremely new, but they should still work fine and get you a few hundrets of slaves with a little bit of work easily.

For 4 Dollars this is definety an ebook to get,
VOUCH

I got hold of a copy earlier, I must say that I've not seen these methods before.

And they are really easy to understand, and this definitely can get you a lot of slaves!

Quality: 9/10

This is the best methods I have seen. I just got a rat and i couldnt get any infections other than irl people i knew, but now I can get heaps of people!

Method: 10/10

OP explains all his methods thoroughly and I have known a few of the methods, but not known how to properly execute them until now. However there were many other new methods I have not seen before which I can now easily get infections from.

Grammar: 9/10

I didnt notice any, because I skimmed through it... But it seemed okay to me :)

Layout: 4/10

I love the layout of the book is in a text document... Real big let down... However it is easy to read it in the text document hence an extra point to make 4/10 :D

Overall: 9/10

Despite the layout of the eBook, I loved it! I love the methods and they are really really good and I can start getting infections as soon as I get my rat up and running! Will post my infections here later for proof :D

I am a noob at getting ppl infected coz its just too hard for me, HOWEVER WITH THIS EBOOK YOU COULD EASILY START GETTING SLAVES EASILY! HUGE VOUCH AND RECOMMEND ALL TO BUY COZ ITS ONLY \$4! HUGE BARGAIN FOR GREAT HQ METHODS!

? Approved by Victini ?

I am in no way affiliated with Daze6969 and this is an 100% truthful and honest review/vouch!

Over all quality : 8/10

This ebook is very simple. There are multiple methods, each one is explained well and original. Just started using one of the methods and I already got a slave. The idea is just so much better than the original mainstream spreading methods.

I'd definitively recommend buying this, you will make your money back in no time.
